McGRAW-HILL COMPANY, INC.
Tenth Avenue and Thirty-sixth Street
NEW YORK CITY

# INDEX TO VOLUME LXXXII

*July—December, 1923*

## GENERAL INDEX

*Entries from the Digest of Current Electrical Literature are indicated by D (Digest)*

### Pages by Weeks

| | | | |
|---|---|---|---|
| July | 7 | 1 to | 58 |
| July | 14 | 59 to | 110 |
| July | 21 | 111 to | 162 |
| July | 28 | 163 to | 212 |
| August | 4 | 213 to | 266 |
| August | 11 | 267 to | 316 |
| August | 18 | 317 to | 366 |
| August | 25 | 367 to | 416 |
| September | 1 | 417 to | 468 |
| September | 8 | 469 to | 518 |
| September | 15 | 519 to | 570 |
| September | 22 | 571 to | 638 |
| September | 29 | 639 to | 688 |
| October | 6 | 689 to | 742 |
| October | 13 | 743 to | 792 |
| October | 20 | 793 to | 844 |
| October | 27 | 845 to | 894 |
| November | 3 | 895 to | 948 |
| November | 10 | 949 to | 998 |
| November | 17 | 999 to | 1048 |
| November | 24 | 1049 to | 1098 |
| December | 1 | 1099 to | 1152 |
| December | 8 | 1153 to | 1202 |
| December | 15 | 1203 to | 1252 |
| December | 22 | 1253 to | 1302 |
| December | 29 | 1303 to | 1352 |

## A

Accident prevention:
——Ascertaining if conductor is alive (J. P. McKearin), *341.
——Barriers in reconstruction work (N. L. Devendorf), 292.
——Coiles:
Fire and safety, combined, 302.
National (See under N)
Industrial safety (N. G. Lloyd) D, 89.
——Compartment interlocks subject to debate (editorial comment), 952.
——Contests, emergency rescue, *241.
——Danger in central and substations, protecting men against (P. W. Eberhardt), 492.
——Distribution and safety, 1124.
——Equipment failures in England, *487.
——First-aid kits standardized by Malden Company, *870.
——Grounding problems (M. Schiesser) D, 822.
——Inspection, electrical safety (L. C. Ilsley) D, 1182.
——Insurance policies, electric accident, 1132.
——Light as a safeguard (editorial comment), 795.
——Motors explosion-proof (E. J. Gleim) D, 499.
——National Safety Council convention, public utilities section meetings, 676, 778.
——Poles, unloading (E. A. Lindsley), *870.
——Safety devices checked by weekly form, Condition of (P. W. Eberhart), 341.
——Storage-battery plant, safety in (C. T. Fish) D 346.
——Switches, safety (D. H. Braymer) D, 499.
——Transformers, explosions in power (O. H. Eschholz), *423.
——Wisconsin Safety Code changes, 1132.
Accounting:
——Accountant must be human (editorial comment), 166.
——Cost, uniform (S. I. Whitestone), 47.
——Machine billing advantages (Indmann P. Marking), *187.
——New York commission adopts uniform account system, 1335.
——Public relations and (E. A. Davis), 1228.
——Utilities commissioners favor uniform forms, 1237.
Advertising (See also Public Relations)
——Advance schedule for, gets results (H. C. Thuerk), *1329.
——Alabama Power Co., 496.
——Boston, Edison Electric Illuminating Co., 500,000-kw. connected load capitalized, *770.
——Concord (N. H.) Electric Company's Appliance, *1077.
——Electrical industry's place in the chorus, the (editorial comment), 957.
——Mill problem given personality, *548.
——Good-will, *1180.
——Haverhill (Mass.) Electric Co., *496.
Advertising (cont.).
——Metropolitan Edison Co., Reading, Pa., *1085.
——Oklahoma Gas & Electric Co., *33.
——Pittsfield (Mass.) Electric Co., *1180.
——Public utility should advertise, why a (Robert S. Merrill), 976.
——Range load, to build, *138.
——Sloan tells Empire State men to advertise more, 39.
——Tell the public and tell it first (Samuel E. Hudson), 613.
Air breakers (See Circuit breakers).
Alabama Power Company:
——Chemical exposition exhibits, 769.
——Coal-storage pile, 100,000-ton, *881.
——Gorgas plant at Muscle Shoals bought, 670.
——Growth of, *504.
——Patrol of high-tension lines, emergency (G. H. Middlemiss), *82.
——Sheffield plant leased to, 1033.
Alarms, fire (W. J. Smith) D, 1182.
Alaska water power, 198.
Alternating current, 25 and 60 cycle generation at Washington, relative cost of (W. R. McCann), *651, editorial comment, 643.
Alternating currents by means of triodes, generation of (N. Shuttleworth) D, 1283.
Aluminum:
——Copper and steel-aluminum overhead lines, merits of (L. Legros) D, 719.
——Resistivity of, of different temperatures (G. Grassi) D, 35.
——Solders, protecting against moisture, 133.
American & Foreign Power Company formed, 1285, 1337.
American Electric Railway Association:
——Convention, 777.
——Overhead-line material specifications, 97.
American Electrochemical Society Convention, 727.
American Engineering Council (see Federated American Engineering Societies).
American Institute of Electrical Engineers:
——Committee appointments, 304.
——Connecticut Section meeting, 1132.
——Conventions:
Annual, *14.
Midwinter, 1336.
1924, p. 778.
Pacific Coast, 195, 503, 721, *774, papers at, *799, *863.
Spring, 1337.
Summer (editorial comment), 370.
——Edison medal:
Holders of, meet, 1030.
Millikan, presented to, *774.
——Pacific Coast convention, 195, 503, 721, *774, papers at, *799, *863.
——Presidential nominees, *929.
——Presidents, past, *19.
——Ryan, interview with President Harris J., *277.
——Technical committee reports:
Education, 23.
Electrophysics, 22.
Instruments and measurements, 22.
Lighting and illumination, 23.
Marine, 22.
Power stations, 23.
Power, industrial and domestic, 22.
Protective devices, 22.
Telegraphy and telephony, 23.
Transmission and distribution, 23.
American Society for Testing Materials, annual meeting, 40.
American Society of Agricultural Engineers, 881, 1031.
American Society of Mechanical Engineers, Convention, 984, 1187.
Appliances, who sells the? I, 1168, II, 1270, editorial comment, 1255, comment (F. E. Stow), 1273 (see also commercial practices and manufacturing and markets).
Arc, electrochemistry of the high-intensity (P. R. Bassett) D, 1232.
Arc welding (see Welding).
Architect:
——Co-operate with the (editorial comment), 320, comment (D. H. Tuck), 437, comment (R. C. Edwards), 437.
——Electrical engineer and, co-operation between (J. W. Beauchamp) D, 397.
Argentina, Buenos Aires western railway (D), 36.
Arizona:
——Central station statistics, 1012, 1118.
——Governor states stand on Colorado River, 1323, editorial comment, 1307.
——Salt River Valley project, 245.
——750,000-hp. development, 779.
Arkansas:
——Utilities Association Convention, 1083.
——White River development, 351.
Arresters (see Lightning Arresters).
Arresters (cont.).
Associated Manufacturers of Electrical Supplies:
——Convention, summer, 37.
——Chairmen, new section, 728, 882.
——Nicholson reviews work of, 1033.
——Section meetings, 882.
Association of Edison Illuminating Companies:
——Convention, 557, 675.
——"Edison," object to wrong use of, 880.
——Survey among residential customers, *708, editorial comment, 693.
Association of Electragists:
——Convention, 778, 832, editorial comment, 797.
——Mountain States division convention, 196.
Association of Iron and Steel Electrical Engineers convention, 402, *672, 726, editorial comment, 692.
Associations and Societies:
——Clearing house established for state, 982.
——Directory of, 56.
——News of 44, 98, 150, 200, 252, 305, 354, 404, 454, 506, 560, 626, 677, 729, 780, 833, 883, 935, 987, 1036, 1086, 1139, 1191, 1240, 1290, 1341.
——Schedule committees, a responsibility of (editorial comment), 1001.
Atoms, magnetic properties of (P. Langevin) D, 1028.
Australia:
——Backward in things electrical, but change is coming (W. Davey), 1120.
——Electrical development (G. G. Cree) D, 720.
——Melbourne suburban electrification (D), 927.
Austria:
——Electrical industry conditions, 436.
——Locomotives, express (B. V. Nes) D, 297.
——Railway electrification (D), 720.
——Water power development, *127.
Automobile industry highly electrified, 582.

## B

Bacharach bill, 1190.
Barometer (See Business)
Batteries:
——Dry, specifications, government (D), 499.
——Planté type secondary, comparison of (Sakae Makio) (D), 499.
——Storage:
Central station use, in, 135.
Charging control, power and excitation, 184.
Electrolytes, impurities in, 74.
Repair method (D), 823.
Repairing and inspecting, 543.
Safety in, plant (C. T. Fish) D, 346.
Weight efficiency of (S. Makio) D, 1232.
(H. E. Dance) D, 1333.
Bearing ball and roller, motors (D. M. Petty), 701.
Billing:
——Demand, effect of time interval and type of load upon integrated kilowatt-hour, 443.
——Machine, advantages of (Indmann P. Marking), *187
Blasting machine foundation, wet straw aids (H. A. Fee), 490.
Boats (see Ships).
Boiler room (see also Boilers):
——Blow-off periods recorded by thermometer (Frederick L. Ray), *972.
——Condenser readings, surface (B. C. Sprague) D, 498.
——Furnace construction (O. K. Lientz) D, 296.
——Instruments, inspection and case, 27.
——Steel-flange standards for high pressures planned, 972.
Boilers (See also Boiler room):
——Anthracite region, practice in (M. M. Price) D, 1231.
——Cinders from flue gases, collecting (L. B. Salt) D, 191.
——Combustion, automatic control of (E. M. Eliot) D, 140.
——Combustion rates and efficiencies (D. C. Hess), *1224.
——Detroit municipal plant, 398.
——Draft gages, *81.
——Efficiency, determination of (H. B. Jones) D, 345.
——Feed water:
Circuits in power stations (D), 822.
Heating and plant economy (G. G. Bell) D, 396.
Treating equipment, small (C. B. Oliver), *867.
——Flue-gas temperature readings, 135.
——Heat balance, graphic method for competing (F. A. Shorkey) D, 191.
——High-pressure steam systems (D. S. Jacobus), *699.

*Indicates illustrated articles

Boilers (cont.).
——Loading, economical limits of (C. F. Wade) D, 1231.
——Pressures higher, may reduce obsolescence (editorial comment), 745.
——Tests to check weekly performance (J. W. Geiger and H. L. Solberg) D, 396.
——Tubes used for lighting posts, old (Frederick Krug), *1122.
Boilers, electric steam:
——(P. H. Falter) D, 616.
——Editorial comment, 371.
Book reviews:
——A.S.T.M. tentative standards for 1923, p. 1184.
——Atoms (Jean Perrin) D, 298.
——Bonds and stocks, yields of (Johnson, Stone Cross and Kircher), 1184.
——Depreciation of public utility (Henry E. Riggs), 90.
——Diagrams for engineering formulas, design of (L. I. Hewes and H. L. Seward), 1184.
——Direct-current machines, principles of (Alexander S. Langsdorf), 1184.
——Drehstrommotor, der (Julius Heubach) D, 980.
——Electric Power Club's standards, 1184.
——Electrotechnik, Jahrbuch der (Dr. Karl Strecker, editor), 1183.
——Engineering index, 298.
——English for engineers (S. A. Harbarger), 1183.
——Freileitungsbau-Ortsnetzbau (F. Kapper), 1184.
——Furnace for iron and steel, the electric (Alfred Stansfield), 500.
——Hochspannungs-Anlagen, die Theorie Moderner (Dr. Ing. A. Buch), 773.
——Isolierstoff der Elektrotecknik, die Material Prüfung der (Walter Demuth), 1183.
——Italy, hydro-electricity in northeast, 90.
——L'Eclairage (E. Darmois), 500.
——L'Entrepreneur-Electricien aide-Mémoire et Schémas de (P. Maurer), 980.
——Lighting and photometry, elementary principles of (John W. T. Walsh), 1184.
——Lighting circuits and switches (Terrell Croft), 90.
——Machine design, elements of (Dexter S. Kimball and John H. Barr), 1183.
——Materials, electric handling of (H. H. Broughton) D, 298.
——Measurements in electricity and magnetism, absolute (Andrew Gran), 980.
——Mechanical engineers' handbook (R. T. Kent and staff), 980.
——Patents throughout the world (William Wallace White and Wallace White), 980.
——Power plant machinery (W. H. James and M. W. Dole), 500.
——Radio communication, elements of (Ellery W. Stone), 500.
——Radio-Télégraphie, Téléphonie, Concert (E. Reynaud-Bonin) D, 298.
——Radiotéléphonie, La (Carlo Toche), 773.
——Radio, the outline of (John V. L. Hogan), 1183.
——Respiration, a manual of artificial (Capt. G. R. G. Fisher), 773.
——Standards compared, German, British and American (Friedrich Nettel) D, 298.
——Starkstromtechnik, Grundzuge der (K. Hörner), 1184.
——Telegraphiques, Appareils et Installations (Prof. E. Montoriol), 90.
——Vectorial method to calculate long high-voltage lines (Ernst Schönholzer), 1184.
——Vibration instruments, electrical (A. E. Kennelly), 1183.
——Wasserkraft Ausnützung uno Wasserkraft Maschinen (F. Lawaczek), 90.
Books received, 90, 298, 500, 773, 980, 1184.
Boston (see Massachusetts).
Brazil:
——Hydro-electric development, 250.
——Railway electrification, estimated savings from Paulista (S. B. Fortenbaugh), D, 1130.
——Steel plant, first all-electric (N. A. V. Paulsson) D, 1130.
British East Indies, railroad electrification in, 383.
Britton, John A., Death of, *38, editorial comment, 3.
Brooklyn (see New York City).
Bureau of Standards (see Standards).
Bus supports, magneto-mechanical loads on (L. H. Robinson) D, 926.
Bushing:
——Mammoth roof, for 165,000 volt circuit, *1004.
——Oil, for 200,000 volts (F. Patzelt) D, 926.
Business (See also Manufacturing and Markets):
——Barometer of electrical, May, *13, June, *330, July, *478, August, *756, September, *968, October, *1166.
——Industry must be stable if central stations are to meet energy demands (editorial comment), 573.
——Joint Committee for Business Development, Bump made chairman, 450.
——Utilities, the outlook for, 1167.
Byllesby & Company, H. M. acquires Coast Valley Gas & Electric Company, 1083.

## C

Cables:
——Aërial for distribution (F. A. Westbrook), 29, *534, 766.
——Agricultural purposes, for (Elvid Soleri) D, 1129.
Cables (cont.).
——Atlantic, landed at Far Rockaway, N. Y., new, 451.
——Charge and discharge (editorial comment), 271.
——Dielectric phenomena, A.I.E.E. on, *14.
——European underground, practice, *1267.
——Insulation resistance, measurement of high values of (J. B. Whitehead), *1007.
——Interconnection, 33,000-volt (D), 35.
——Ionization:
Existence of, in entrapped oil spaces (D. E. Howes), 336.
Extent still undertermined (William A. Del Mar), 78, comment (D. E. Howes), 336.
Gaseous, in built-up insulation, A.I.E.E. on, 17.
How serious is? (editorial comment), 321.
——Joint, the Cleveland 66-kv. (H. L. Wallau), *1058.
——Joint-box for mine (W. F. Boyle), *713.
——Jointing of high-pressure (D), 719.
——Laying, by special plow (J. W. Sylvester), *1123.
——Lead-covered, locating faults in buried (H. S. Baker), *815.
——Loading of, current (S. W. Melsom) D, 616.
——Maintenance of, in manholes (F. L. Rohrbach), *1164.
——Messenger, suspension for local distribution (F. A. Westbrook), *1225.
——Mines, entrance to (W. E. Boyle), 919.
——"Romex" (see under R).
——Sheaths, systematizing electrolysis tests on, *1022.
——Soil temperature and rating of (A. Smirnoff), *438.
——Submarine, electrode apparatus for locating faults (F. B. Young and W. Jevons), D, 345.
——Suspended, effect of shearing stress on the span, calculations of a (T. Ohtsuki) D, 1282.
——Testing:
Organizing, for routine handling, 1226.
33,000-volt, English, *492, Correction, 661.
——Underground:
Practical installation of (Philip H. Torchio) D, 668.
Record system (F. L. Rohrbach), *1123.
California:
——Berkeley service quickly restored after fire, 618.
——Coast Valley Gas & Electric Co.
Byllesby acquires, 1083.
Rates reduced, 982.
——Commission's work on overhead inspection, 94.
——Electrical Co-operative Campaign, window-lighting exhibit, *32.
——Feather River Power Company's project, 928.
——Hetch Hetchy development, 149, 351, 558, 624, 777, 831, 1034.
——Inductive interference, 250.
——Los Angeles, Bureau of Power and Light, suit against, 984.
——Pacific Gas & Electric Co.
Disconnecting switch, 220,000-volt (Frank P. Lawler), *372, *388.
Leach succeeds Britton, 96.
Pit River transmission line, 1236.
Rate decrease, gain in business offsets, 245.
Vice-president in charge of public relations and sales, 294, editorial comment, 269.
——Sacramento development plan, 93.
——San Diego Consolidated Gas & Electric Company's new transmission line, 1238.
——San Francisco's Hetch Hetchy development, 149, 351, 558, 624, 777, 831, 1034.
——Southern California Edison Co.
Big Creek lines changed to 220,000 while hot (H. A. McIntosh), *694, editorial comment, 693.
Big Creek plant No. 3, p. 721, *830.
Capitalization, new, 245.
Developments (H. L. Doolittle) D, 1181.
Eagle Rock substation, 220,000-volt auto-transformers, *218.
Fire damages lines of, 829.
Laguna Bell substation, 450, *919.
Merchandising and public relations the chief issues, 547, (editorial comment), 523.
Merchandising policy, 1237.
Rates reduced, 881.
Residence survey has done, what a continuous (Will H. Fischer), 1178.
Canada:
——British Columbia Electric Railway's Stave Falls dam, 147.
——Canadian Electrical Association officers, 96.
——Trams, electricity on (D), 669.
——Fuel situation (D), 1129.
——Hydro-electric development in maritime provinces, 451.
——Montreal Light, Heat & Power Consolidated development, *190.
——Niagara diversion board, 245.
——Ontario, hydro-electric developments in (F. A. Gaby) D, 243.
——Ontario, Hydro-Electric Power Commission:
Investments, 349.
Queenston-Chippawa station, turbines for, 778.
Steam auxiliaries planned, 1189.
——Power export, 246.
Canada (cont.).
——Quebec:
Duke-Price plant at Isle Maligne, 726.
New England power scheme, 1132.
——Water power, Beek says Chicago hurts, 349.
Capacity factor is a measure of utilization of capital (editorial comment), 1307.
Carbon-monoxide meter, electric (M. Moeller) D, 35.
Carrier-current:
——A.I.E.E. papers on Pacific Coast installations, *804.
——Operation record, *341.
——Power company communication (D), 36.
——Power lines, for (D. Dressler) D, 551.
——Staten Island, Broadcasting over wires in, 448.
——Suit over "Wired Wireless," 1234.
——Transmission lines, over high-voltage (E. Austin) D, 89.
Central station business (see Commercial practices).
Central stations (See Generating stations and hydro-electric plants).
Charts (see also Records).
——Line regulation, for enabling, 1467, June 23, 1923, correction, 8.
——Overhaul-line alignment (K. Riedlinger) D, 978.
——System diagram (R. E. Watrous), *30.
Chemical:
——Manufacture by electrolysis (Albert Clarke) D, 979.
——Plants, motors for (J. L. McK. Yardley), $605.
Chiago (see Illinois).
Chimney sizes, determination of (Alfred Cotton) D, 771.
China:
——Cotton mill, model, 1109.
——Shanghai, condensing plant for 20,000-kw turbine at (D), 1129.
Cininnati (see Ohio).
Circuit breakers:
——A.I.E.E. papers on, Pacific Coast, 803.
——Automatic, extra-rapid (P. Forget and L. Wasser) D, *1231.
——Automatic reclosing, *185.
——Design, important features in (E. K. Read) D, 1129.
——Engineering progress (editorial comment), 216.
——Low voltage, large (D), 616.
——Oil:
Explosion pots reduce trouble, *176, editorial comment, 167, comment (J. D. Hilliard), *540.
Hilliards article comment by author, 1019.
Inspection form, *1275.
Interconnection, relation to, 237.
Outdoor, for 44,000-volts (D), 1282.
Plain-break and explosion-chamber breakers (J. D. Hilliard), *540.
Series trip coil inside, incorporating, *660.
South African, *176, editorial comment, 167, comment (J. D. Hilliard)), *540.
Circuits, power companys' responsibility for informing customers about (J. H. Mehan), 78, comment (Fred M. Kimball), 488.
Cleveland (see Ohio).
Coal (see also Fuel).
——Appalachian Mountains, supply of the Western slope of the Southern (J. A. Switzer and W. R. Woolrich) D, 1181.
——Canadian situation (D), 1129.
——Commission, U. S.
Anthracite report, 195.
Editorial comment, 61.
Mail report, 674.
Labor turnover report, 881.
Reports, George Otis Smith appraises, 1138.
Wage-rate report, 881.
——Conservation and superpower plants (E. Douglas) D, 874.
——Cost to operators put at $1.20 to $2.80 a ton, 555.
——Crusher for chemical analysis, cost of, 27.
——Distillation of by-products, low (editorial comment), 847.
Consumers' Power Company at Zilwaukee station (H. F. Eddy), *1314.
Loader for, motor-driven, *234.
——Mining:
Bituminous, in eastern states, 621.
Costs with utility service, Analysis of itemized, 1274.
Federal departments at odds as to new, 505.
Illumination by light projectors at (Edgar Gealy) D, 1283.
Irregular, 621.
Labor turnover and wage rates in bituminous, 881.
Regulation, 91.
Susquehanna Collieries Company's electrification, 1285.
——Situation, 348, 727; editorial comment, 1101.
——Storage:
Alabama Power Company's 100,000-ton pile, *881.
Canal, in abandoned, 880.
F.A.E.S. investigation, 248, 449.
——Washer (A. T. Hutchins), *337.
Code:
——National Electrical:
Aid or hindrance? (editorial comment), 571.
Correction of errors in new edition, 1266.

*Indicates illustrated articles

Code (cont.).
Delay in changing (R. S. Hale), *102, comment (John A. Hoeueler), 387.
New England electrical men confer on, 1237.
1923 edition published, 722.
Official status, gives its changes (editorial comment), 746.
——Operating, of Philadelphia Electric Co.
Batteries, storage, 135, 184, 543.
Boiler instruments, 27.
Condensers, surface, 663.
Draft gages, *81.
High-tension testing, 920, 974.
Interrupted lines in generating station, restoring, 292.
Lightning arresters, 493.
Low-tension testing equipment, 610, 663.
Maintaining equipment, 340.
Pumps, air, 543.
Pumps, centrifugal-type wet, 610.
Pumps, circulating, 493.
Rectifier sets, mercury-arc, 81.
